Intercoms, answering units, smart access
readers and accessories

2N.com

Unlock the Future

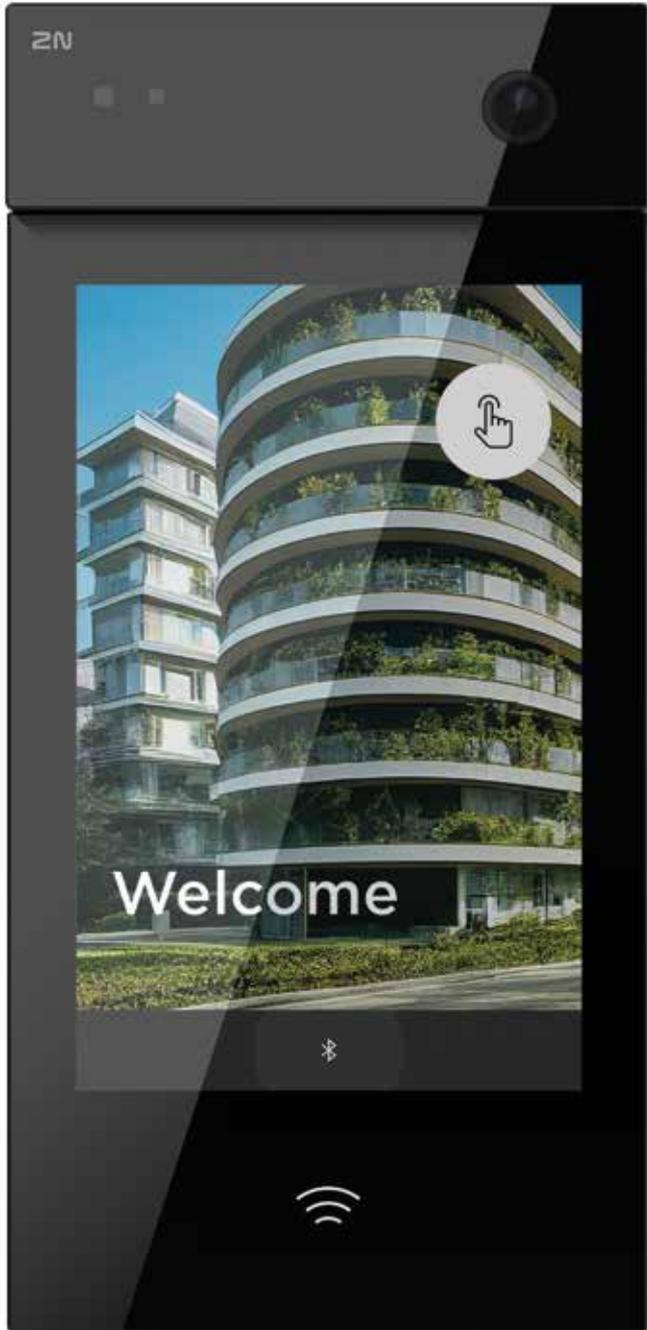

Build a modern access control solution that exceeds all your expectations. 2N set industry standards and never compromise on (cyber)security.

IP Intercoms

Don't choose between secure
and convenient communication.
Demand both!

2N[®] IP Style

Premium intercom
with a **10" display**
and **5MP camera**

The wide-angle camera of the 2N[®] IP Style can pick up images for video calls even in bad lighting - and you can choose from four access technologies including cutting-edge mobile access. Add to that smooth animations plus resistance to any weather - and you have an intercom that **sets standards for years to come!**

Choose between a standard version, a version with secured card support, or a version with a unique **AntiBac screen protector**. Install it flush or surface.

2N® IP Force

The world's **most durable** intercom

Looking for an indestructible intercom designed **for extreme conditions**? You've found it. The 2N® IP Force has the highest water, dust and vandal resistance rating on the market, and the **10W speaker** ensures clear sound even in noisy places such as garages, schools, or prisons.

Choose from models with or without a camera – as well as one, two, or four-button versions.

More about the products

2N® IP Safety

Indestructible SOS intercom

The 2N® IP Safety is an extremely durable intercom designed for emergency communication in car parks, cities, highways, or factories. **The bright orange** finish makes it easy to find, and it's simple to use too - users just click one button for a direct call to the **SOS line**.

Choose from three versions: one button, two button, or a raised emergency button.

2N® LTE Verso

The world's first **4G** intercom

An intercom perfect for tricky locations: whether that's a period home with legacy wiring or a remote spot such as a gate far from the front door. Why? **Calls are made via SIM card** and it only needs a power supply to function.

Colour variants

2N® IP Base

Compact intercom with an HD camera

2N® IP Solo

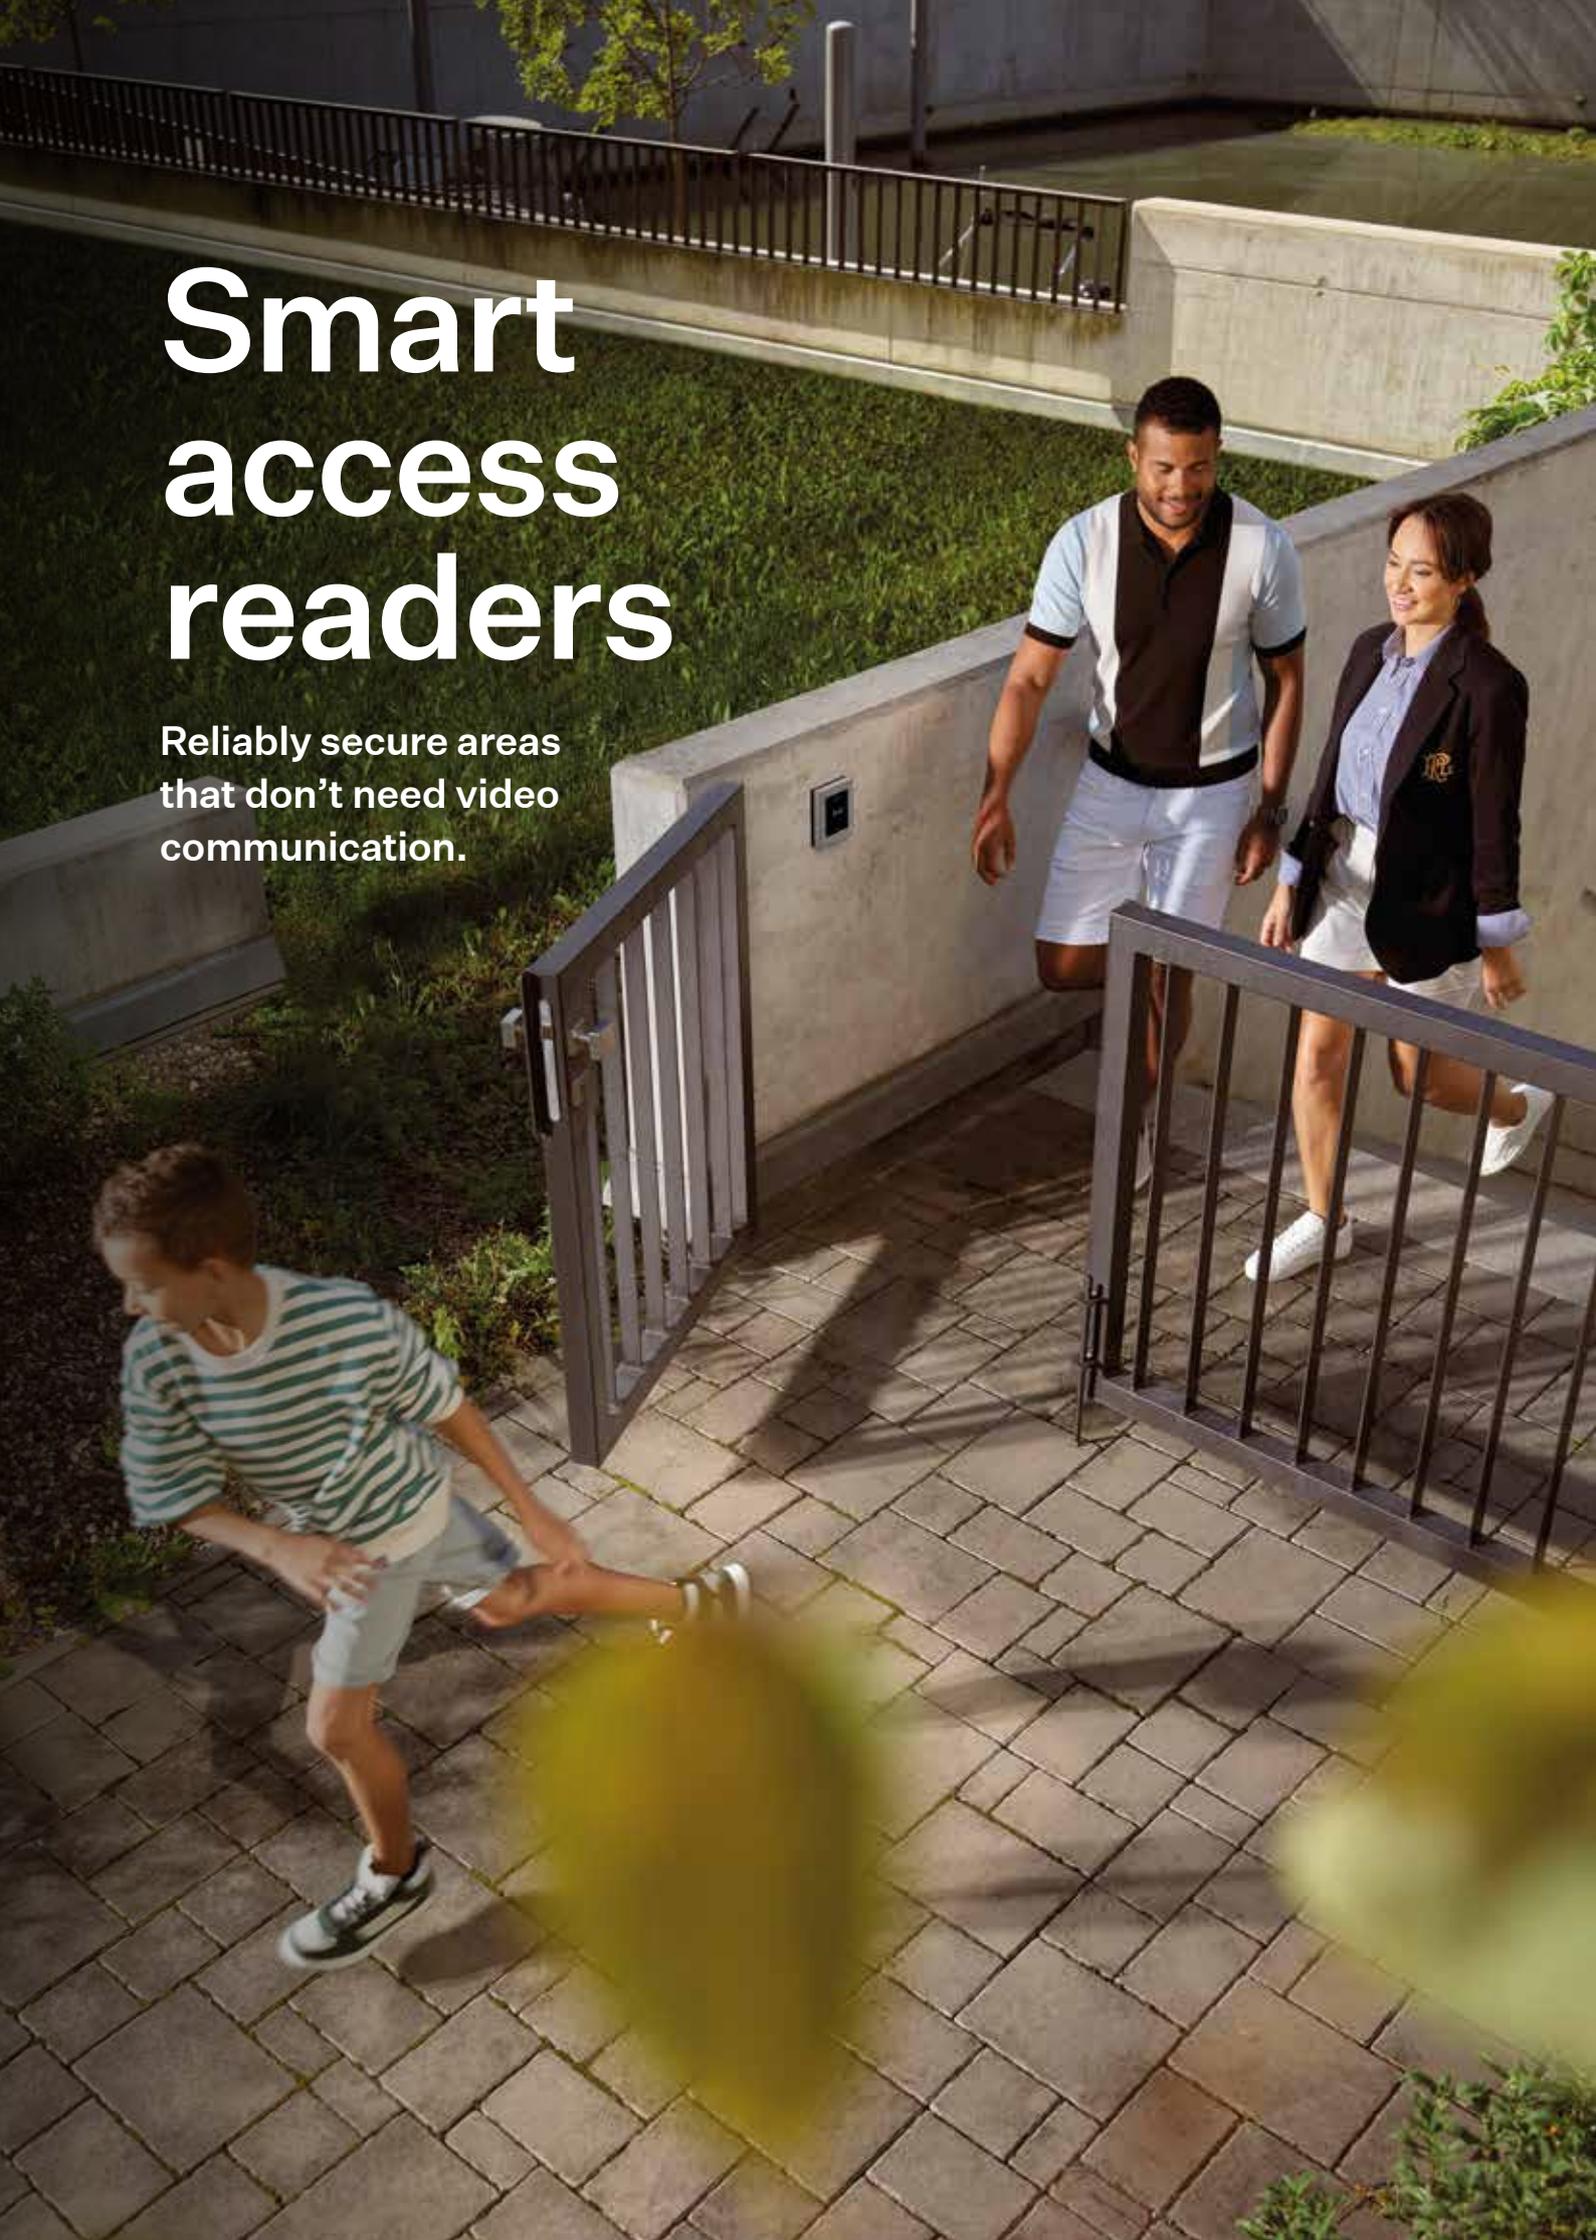

Stylish **one-button** intercom

Colour variants

Smart access readers

Reliably secure areas
that don't need video
communication.

2N Access Unit M

Smart reader
in a **slimline design**

The 2N Access Unit M combines both a **reader and controller in one device**. A single UTP cable is enough for connection and power supply, and thanks to its compact design, you can easily install it on **door frames** or anywhere you're struggling with space.

Choose from several options - RFID, RFID combined with mobile access via Bluetooth, or RFID with a keypad. The latter is perfect for projects with **double authentication** requirements.

2N Access Unit 2.0

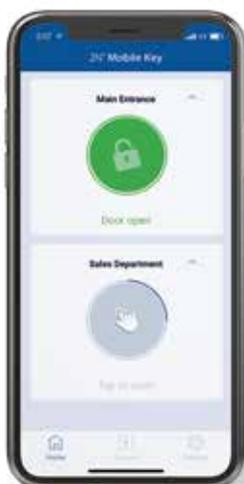

Modern reader with **multiple installation options**

Need an access reader for your project but don't want to compromise on style? **Users and architects** alike will love the 2N Access Unit 2.0. It matches the design of the 2N® IP Verso 2.0 and you can install it surface, flush and glass. What's more, controllers are included in every reader in our portfolio.

Choose modern access by mobile phone or fingerprint. Prefer traditional methods? Then we offer an RFID card reader or keypad. Can't decide? Choose a **combination of multiple methods** in one device.

Colour variants

2N® Mobile Key

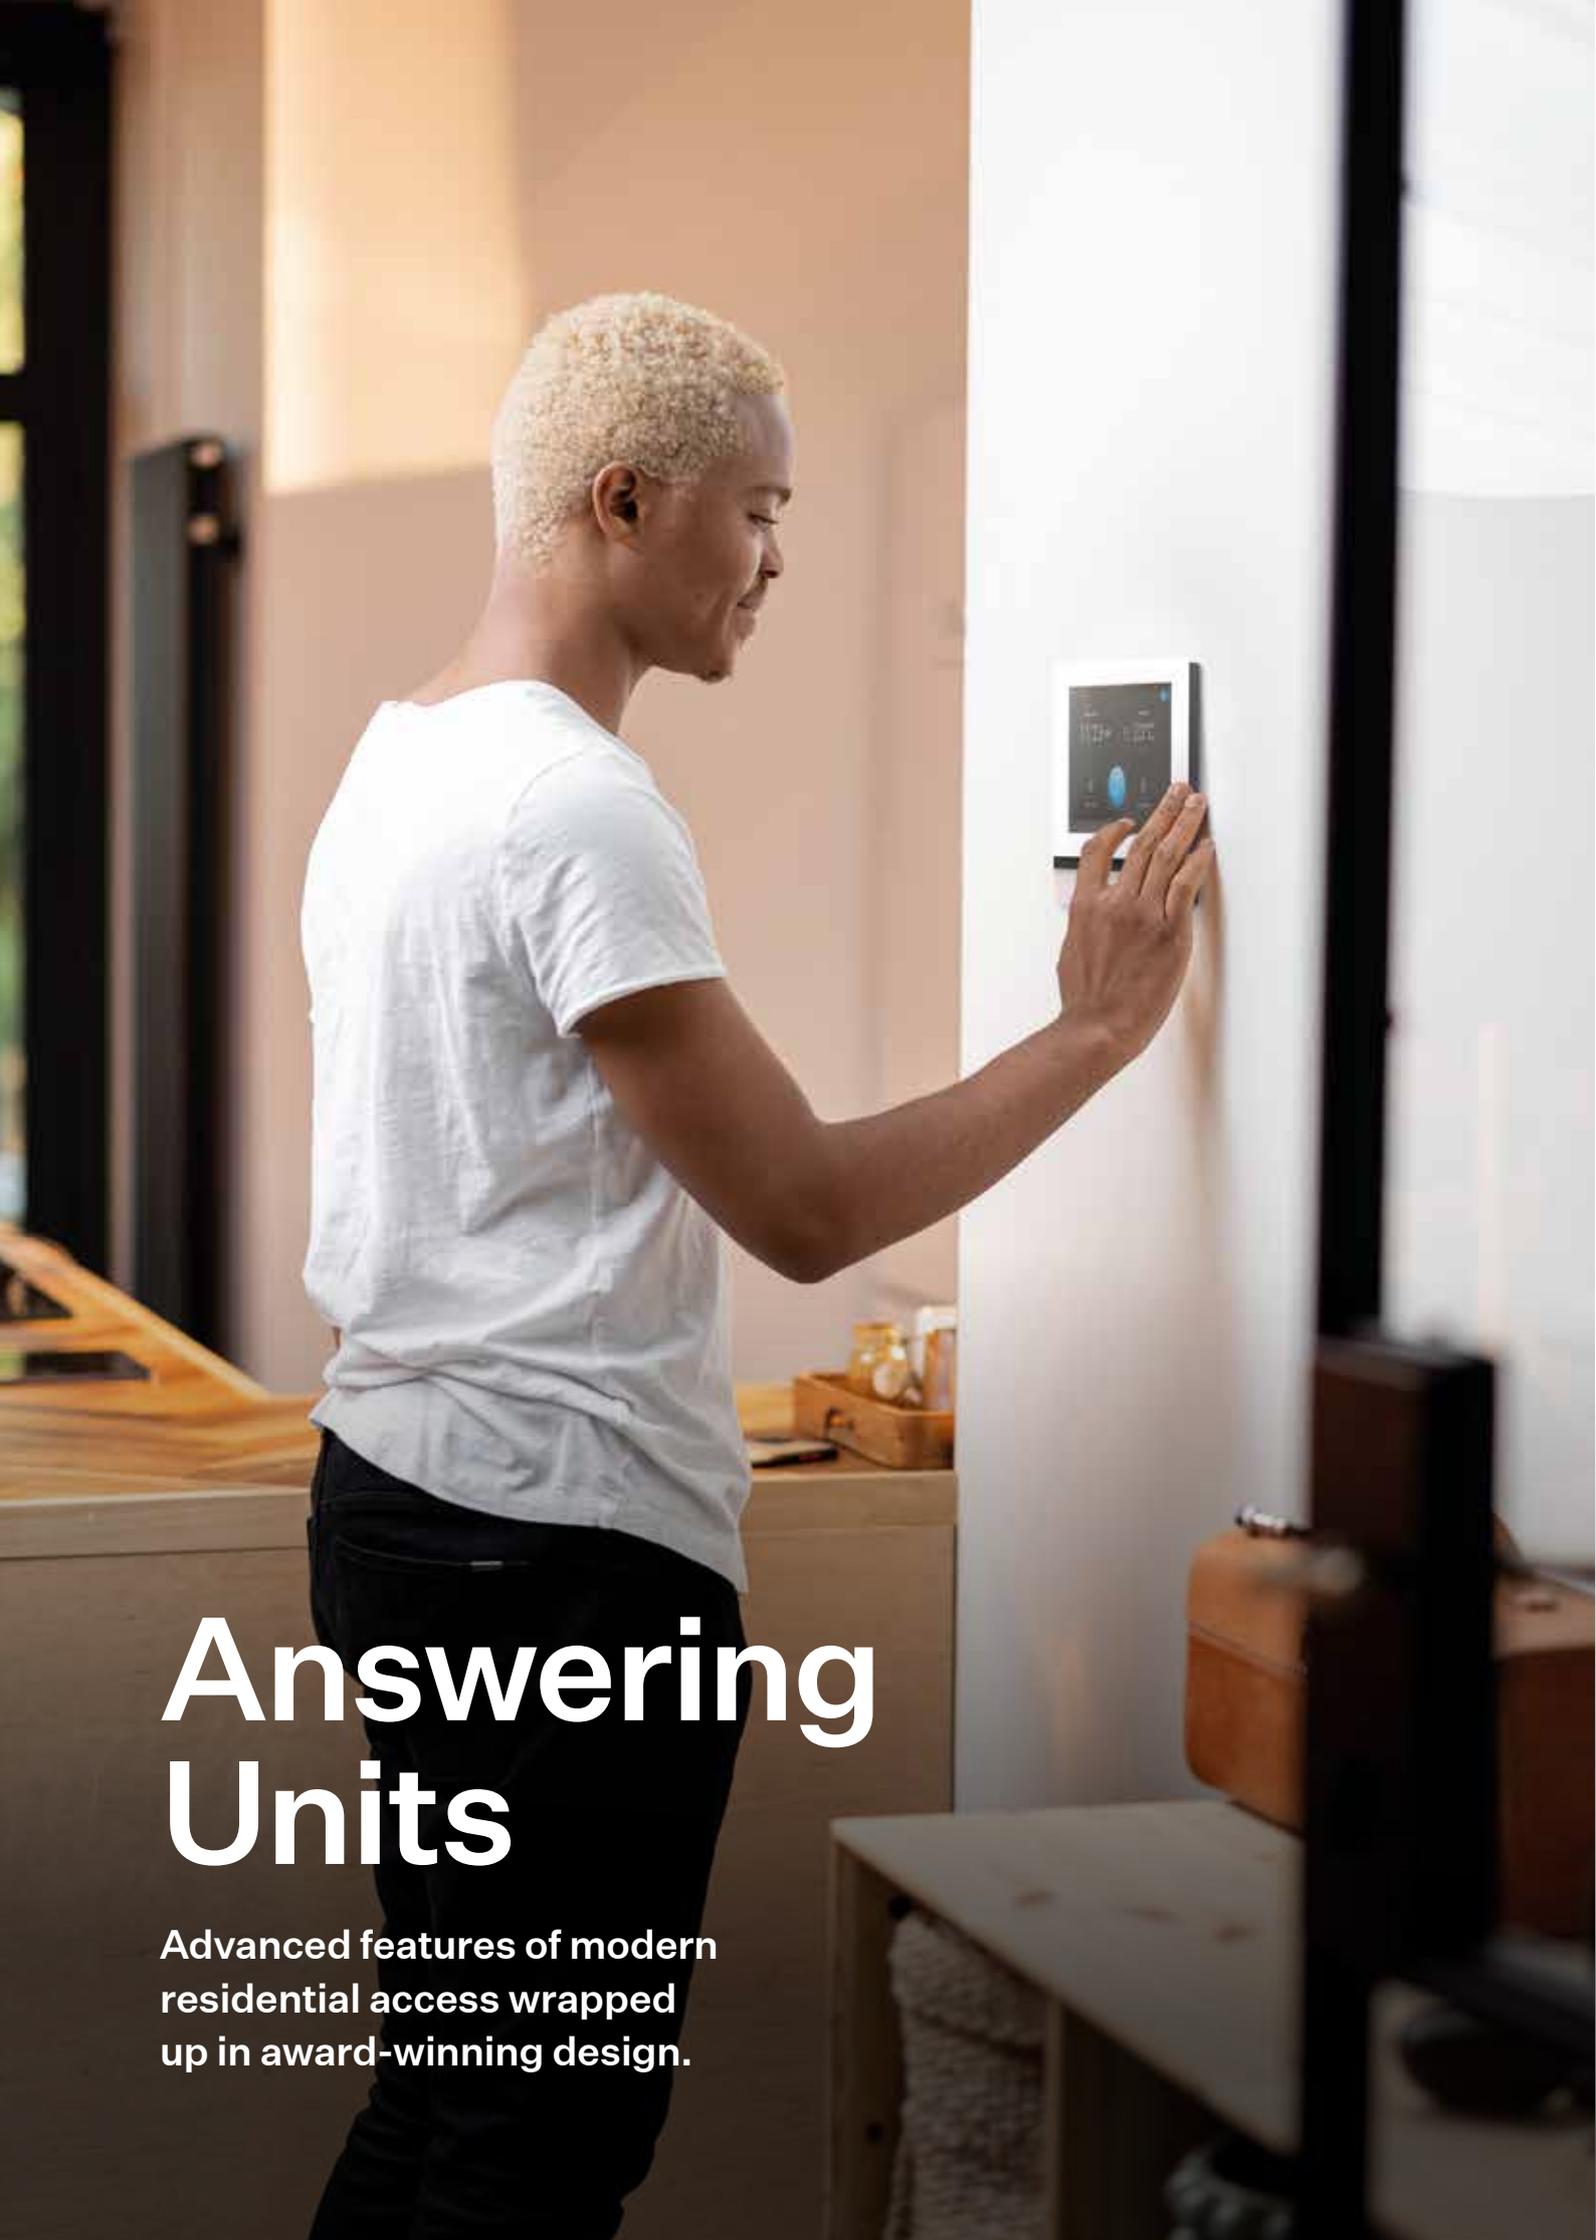

Mobile **access app**

Replace keys and RFID cards with mobile phones. Patented technology by 2N has made Bluetooth access **convenient, reliable and secure** at the same time.

Mobile credentials are completely free.

More about
the products

A man with short, light-colored hair, wearing a white t-shirt and dark pants, is shown in profile from the side. He is smiling and touching a sleek, rectangular smart door lock mounted on a white door. The lock's screen displays a blue circular graphic and some text. The background is a modern interior with warm lighting, a wooden table, and a brown suitcase on a chair.

Answering Units

Advanced features of modern residential access wrapped up in award-winning design.

2N® Indoor View

Sleek answering unit
with 7" touch display

The 2N® Indoor View supports HD video calls and will be at home in even the most luxurious of penthouse apartments. Stream the feed of up to **16 connected IP cameras** and, thanks to the sending of HTTP commands, fully integrate the unit with home automation systems.

It can be installed on the wall (flush or surface mount) or in a stand the user can place where they like.

More about
the product

2N® Indoor Touch 2.0

Multifunctional panel with Android OS

Install **home automation apps** on this 7" unit so the resident can use it to control the lighting, heating, blinds, music and security.

Colour variants

2N® Indoor Compact

Answering unit with 4.3" display

Premium materials, first-class workmanship, and **dozens of advanced features**: all wrapped up in a compact answering unit.

Colour variants

2N® Indoor Talk

Stylish audio answering unit

Audio communication is enough for some projects, but appearance still matters. Choose a unit with a **tempered glass surface** and smooth edges.

Colour variants

2N® IP Phone D7A

A modern device for a **modern reception**

2N® IP Handset

Classic answering unit

Colour variants

More about the products

My2N App

Receive calls from intercoms via mobile

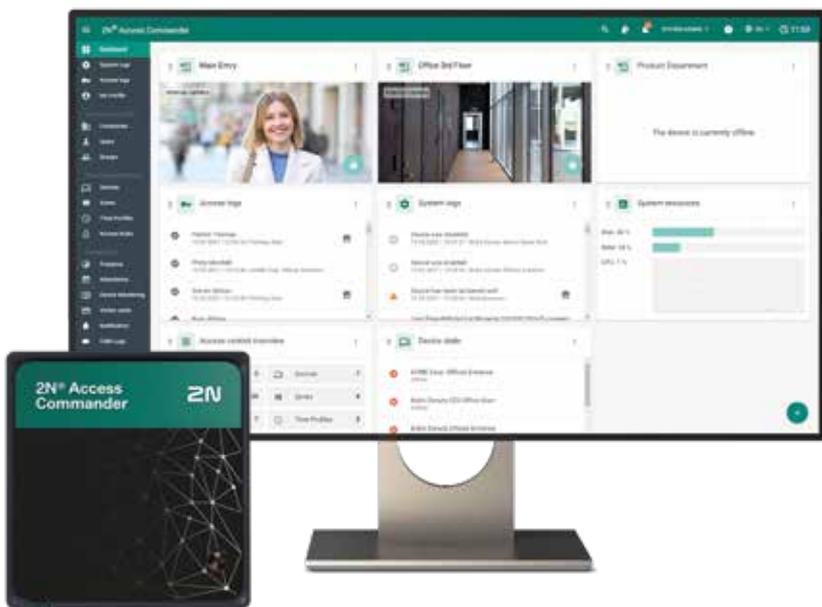

Give your residents a home they can stay in contact with no matter where they are. The My2N app allows them to answer video calls from intercoms remotely for a full overview of attempted visits to their home. Plus - they'll never miss a delivery again!

A woman with brown hair tied back, wearing a light green blazer over a patterned top and white pants, is sitting on a concrete ledge in a modern office. She is looking down at a laptop on her lap, appearing focused. The background shows a large glass-walled office space with desks and chairs, illuminated by warm, golden light.

Product Management

Don't waste time configuring individual devices: set up the entire solution with ease.

2N® Access Commander

Advanced management of access control systems

The 2N® Access Commander software is the ultimate tool for the **local management** of your access control system. It has been developed specifically for commercial buildings with large numbers of devices and is still simple to use. Set up multiple administrator roles and **delegate** system management to the customer to save your time!

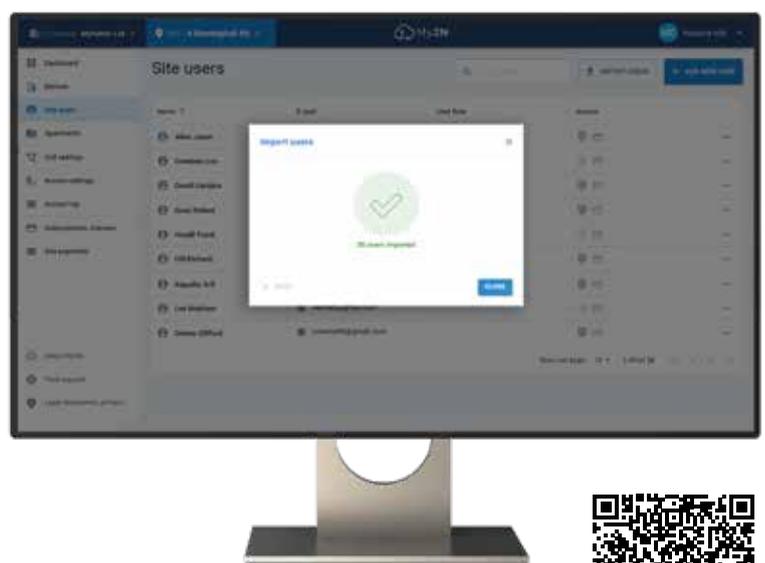

The software is available for download at 2n.com, or you can order it pre-installed on a mini-PC.

More about the product

The My2N Management Platform

Efficient and remote installation management

In the My2N **cloud platform**, you add and remove users and devices, manage access rights, update firmware, diagnose and troubleshoot – all from **anywhere in the world**. My2N offers straightforward and convenient management, especially suitable for residential installations.

More about the product

2N OS

Each product that has the 2N OS can of course be set up individually in its own web interface. This requires more advanced knowledge, but offers the most options.
