2N® IP Verso

The 2N® IP Verso security intercom is configurable to your needs thanks to its modularity. It provides reliable access control and allows you to easily interface with other systems. Now also in black, with a fingerprint reader, Bluetooth module, or touch display.

Offices and office buildings	State administration public
Residential complexes	buildings
Family houses	Home Automation
Schools and campuses	Hotels

Bluetooth technology
Get the latest technology in access systems. The Bluetooth module lets you eliminate access codes, entry cards, and key distribution.

Touchscreen
Create an intuitive and structured contact list similar to that in your mobile phone. It is water resistant vandal resistant and easy to read even in direct sunlight.

Camera with night vision
See who is standing in front of your door, even in total darkness. Moreover, the camera is hidden from normal view. The intruder has no clue they're being monitored.

2N® IP Verso

Adjustable door security levels
Make use of different security modes with the 2N® Mobile Key application, which allows you to adjust the functioning distance from the Bluetooth module.

Intuitive controls and search
The touchscreen has all the functions of a mechanical keyboard. Discover its luxury design and intuitive controls and search.

Access control
Achieve a greater level of security for all those at its location. 2N® IP Verso makes it easy to prevent the entry of unauthorized persons.

Modularity
The modularity of this IP Intercom allows you to configure it to your requirements. Select the specific module, accessories and configurable functions.

SIP support with no server needed
SIP protocol support makes it easy to link the intercom with IP phones and PBX from other producers, without having to connect to the server.

Security relay
This simple additional device prevents intrusion by detecting any unauthorized manipulation of the electronic locking system.
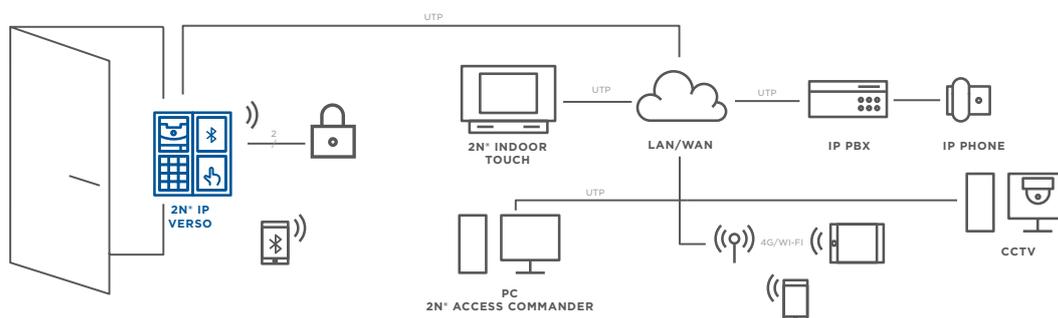

Picture to email
2N® IP Verso allows you to email snapshots of the visitor captured by the camera at the time of the call.

2N® Remote Configuration
Save time and money for onsite support thanks to our free service. Access all your devices remotely via secured cloud connection. Fastest response to your customers requests.
