

## YBN-R/4IS(WHT)

### Conventional Intrinsically Safe Detector Mounting Base

#### General

---

The YBN-R/4IS(WHT) is a WHITE conventional detector mounting base associated with the conventional range of intrinsically safe detectors which is fully compatible with the majority of existing conventional fire alarm control panels.

#### Installation

---

The YBN-R/4IS(WHT) is supplied with square cable clamps for secure and reliable cable termination. Note that this base does not provide line continuity during detector removal (head out support). If manual call points are therefore being used, then these should be wired onto the zone first.

#### Standard Features

---

- Low profile
- Rugged design
- Dedicated cable screen terminal
- Accepts from 1 to 2.5 mm<sup>2</sup> cables
- Quick connection via square cable clamps
- Electronics free

# YBN-R/4IS(WHT)

## Conventional Intrinsically Safe Detector Mounting Base

### Specifications

#### Environmental

Relative humidity (max - no condensation)	95% @ 40°C
---	------------

#### Mechanical

Colour	White
Material	ABS
Weight	51 mm
Dimensions (dia x h)	100 x 8 mm
Fixing centres	48 to 74 mm
Wire thickness (max)	2.5 mm <sup>2</sup>
