65/75/86 inch Smart interactive whiteboard

The plug-in camera is sold separately.

Series Overview

Dahua DeepHub Smart Interactive Whiteboard for Education has powerful processing capabilities with its 8-core CPU, 8 GB RAM and 64 GB ROM capacity. Equipped with a $\phi 2$ mm high-precision IR frame and 4K high-definition DLED, this series of whiteboards will give you an extraordinary experience whether you are writing, controlling or displaying content. It features wireless screen sharing, file management, high-definition display, Scan & Go, and more. You can rely on this whiteboard to modernize your classrooms.

Functions

Hidden Antenna Design

The Wi-Fi and hotspot antenna is neatly concealed in the front of the device, ensuring the stability of the signal strength when using a flush mount, and giving the device its simple and sleek appearance.

Screen Sharing

The content on your screen can be freely shared with one other device through a wired connection.

Wireless Screen Sharing

In addition to basic file sharing, the device offers wireless screen sharing, interactive operations between two screens, and reverse transmissions. It also supports screen grouping (multiple transmission), host mode (for overall permission control), real-time transmission of images, videos and audios from the wireless camera of the mobile phone to the device, and split-screen mode that displays up to 9 splits on the same screen.

- 65/75/86-inch 4K DLED display with Zero Air Gap technology that delivers a clear image in sharp, vivid colors.
- Wireless screen sharing from multiple devices with an intuitive, easy-to-use system.
- 8 physical front buttons for quick access to functions.
- Multiple ports and front full-featured Type-C supports 65 W charging.
- Smooth writing experience that supports handwriting recognition.
- Quick file sharing by scanning a QR code, with easy file encryption for added privacy and security.
- Switches between Android and Windows, and OPS module is optional.
- Optional USB camera that takes photos in 48 MP resolution.

Similar to Real Writing Experience

The electronic whiteboard supports pen-point writing. It comes equipped with specialized pressure-sensitive writing pens, designed to enhance the writing experience. With its soft, comfortable nib, writing on the whiteboard feels natural, similar to the real writing experience.

Easy to Share

Enhances the experience of sharing files by scanning a code. It automatically determines the network of the device to readily share the QR code across the extranet and the intranet. QR code encryption and extraction are also featured, providing privacy and data security through the required entry of a 6-digit password for verification.

Text Recognition

Converts written letters into text in real time, using the default font of the system.

AI Recognition of Drawings

Identifies hand-drawn structures such as straight lines, arrow-straight lines, arrow-dotted lines, triangles, parallelograms, trapezoids, rectangles, pentagons, circles, cylinders, pentagrams, semicircles, and ellipse.

File Management

Supports managing and using Office files, image, video and audio files, and file formats such as PDF and TXT.

Scene

The whiteboard is ideal for indoor sites such as meeting rooms and classrooms.
