Description.

Description

- An advanced management monitor, with hands-free communication, digital audio quality and high definition video.
- It incorporates a capacitive touch screen that offers an intuitive user experience, thanks to its graphic icons and LED notification indicators (missed calls, messages, do not disturb).
- Available in 7 inches.

SAFETY AND PROTECTION AT HOME

- It allows intercommunication between other monitors in the same home as well as with other apartments.
- The monitor manages 7 alarm zones that can be activated or deactivated according to 3 scenarios or modes: HOME, AWAY and NIGHT. Alarms are notified to the counseling and management software.
- It is possible to activate up to 8 external relays using ref.1616.
- Viewing up to 8 IP CCTV cameras.
- Direct power from the PoE switch.

ELEVATOR CONTROL

- The owner will be able to access his home safely. By showing the proximity card the elevator control system will enable access to your apartment floor.
- The visitor will be able to board the elevator on the ground floor and access only the resident's floor, simply opening the door when a call is received.
- An interesting formula to improve security in large residential projects.
