MEET GUEST CODE WIEGAND MODULE

Reference

1494

EAN

8424299014944

Description.

Description

- The GUEST CODE MODULE is a device necessary to use GUEST CODE function in MEET panels. It is compatible with MILO V.20 o above and KIN V2.11 or above panels.
- The GUEST CODE function allows to certain users (guests) to access the building by means of an access code that has been previously provided to him, that have a period of validity, a third party Access Control System with Wiegand input is required for managing the guest codes.
- The GUEST CODE MODULE is installed between the panel and the Access Control System, and converts the RS-485 data from the panel into WIEGAND data that are entered in the Access Control System for their management.
