1W VDS VIDEO CITY VEO WIBOX KIT

Reference

94111

EAN

8424299941110

Description.

Description

VEO VDS kit for single-family homes, offices and businesses. A kit that includes Fermax VEO monitor and WI-BOX device for call forwarding to mobile.

The VEO KITS include all the necessary material for an installation: Cityline entrance panel, a safe value, the result of combining classic aesthetics, robustness and reliability; the VEO monitor, the power supply and the WI-BOX device for call forwarding to mobile.

VDS Technology (5 wires) - 1 Housing - VEO Monitor

The kit includes 3 of the most successful Fermax items:

- VEO VDS monitor. A new member of the home for those who seek comfort and naturalness when communicating. Its balanced design of pure lines, differentiating, modern and minimalist is integrated into the environment of any current interior design.
- CITYLINE plate. The genuinely urban symbol. Elegant and modern, robust and with high quality finishes. Made with anodized aluminum profile with high resistance to the elements and profile closures in injected zamak of great robustness and chrome finish.
- WI-BOX device to enjoy call forwarding to mobile.

Wi-Box is a WiFi device with VDS technology that allows you to divert calls received on the monitor or VDS telephone in the home to the mobile.

It is only necessary to download the Fermax Wi-Box application, available for free in the Play Store and App Store, and pair it with

the Wi-Box module.

Allows you to answer video door entry calls even when you are not at home.

It is physically installed near the VDS terminal in parallel, and acts as one more terminal. Through the Wi-Box application it is possible to remotely perform the same functions that can be activated from the home terminal, and many more!

Connectivity for everyone from anywhere.

Technical Details

TECHNICAL SPECIFICATIONS

It includes:

- 48505. CITY COLOR VDS 1 / L panel and embedding box (ref. 8948)
 - Panel size: 130x128
